

Scotch Plan VROM

Kit:

Europcar - 17 seater minibus - additional driver and additional fee to reduce insurance excess - from the Wednesday to the Tuesday - approx £1000

Ferry - Dover -Calais return - Wednesday to Tuesday - approx £100

TOTAL £1100 - call it £1200

Members:

Return flight by Ryanair - Thursday to Monday approx £100

Scotch Plan had it that the kit and a couple of drivers take the van cross sea/land, everyone else goes by air - cost of van and ferry split between all, except the driving team. On that basis, assuming folk fly themselves there it would cost the following depending how many folk we can take ...

20 people minus the two drivers = 18 people = £66.66 towards kit/ferry, plus £100 flight = approx £166.66 per person (plus any expense getting to and from airports)

10 people minus the two drivers = 8 people = £150 towards kit/ferry, plus £100 flight = approx £250 per person (plus any expense getting to and from airports)

NA Plan VROM

By coach - chap in 21e (not NA but prob similar arrangement) said they are charging £270 for a seat in their coach.
