

### Ferry Firm Estimate

Have got the all-but-final attendee figures in. Numbers for ferry looking like 11 or 12, more likely 10.

On that basis I contacted P&O for a price today for the following ....

Dover to Calais 00:50 17th October

Calais to Dover 18:50 21st October

12 people

Minibus 3m high and 7m long

... the price today (18/07/13) is £124 all in.

I asked the lad what the absolute worst case scenario was likely to be (like if we were unable to book until the day before) and although he couldn't say for definite he said the likely maximum would be about £240.
